I) EFFECTIVE UTILISATION OF EQUIPMENTS

A Multipurpose Welding Setup has been installed with the aim to train the stakeholders to

- Multipurpose Welding Setup have capable of perform SMAW,GMAW and GTAW processes.
- Welding skill Training has been given to the four interestedStudents from Mechanical engineering using Multipurpose Welding Setupand encouraged to register in District level Skill Competitions. Out of four, one student have been shortlisted for state level competitions.
- Training of SMAW,GMAW and GTAW processes was added in first year workshop

MULTIPURPOSE WELDING SETUP

II) SKILL COMPETITION

Two students from GCE Bargur Selected for State level Skill competitions in Welding and Networking

Students are encouraged to register in District level Skill Competitions and training have been given to the student. There are 9 students participated in district level competitions in Welding, Networking, Mechanical CAD and Mechatronics, out of 9 students, 2 students have been selected for state level Skill competitions in the Category of Welding and Networking

List of Students Trained and Participated in District level Skill Competitions

S.No.	Name of the Student	Year/Department	Skill	Status
1	Mr.D.Ajith Kumar	Final year/CSE	Networking	Winner (selected for State level)
2	Mr.K.Elumalai	Third year/Mech	Welding	Winner (selected for State level)
3	Mr.C.YuvaPrasanth	Third year/Mech	Welding	Participated in District level
4	Mr.N.Charan	Second year/Mech	Welding	Runner in District level

III) GREEN POWER:

On-grid solar grid, Double-fed induction generator (DFIG) and Fuel Cell Trainer setup

With the aim of reducing the electric bill and carbon footprint On-grid Solar grids has been installed. On-Grid Systems are solar pv systems that only generate power when the utility power grid is available. They are connected to the grid to function. They can send excess power generated back to the grid when you are overproducing. These systems will pay for themselves by offsetting utility bills in 3-8 yrs. They are cost effective.

10-KW ON-GRID SOLAR POWER PLANT – 5 Nos

DOUBLE FED INDUCTION GENERATOR(DFIG) SETUP

Nowadays, in the field of renewable energies, several types of electric machines are used as *generators* in wind energy conversion systems. Therefore, the *study* of *Double Fed Induction Generator(DFIG)* has regained importance because it has become the most popular *generators* for wind energy applications. It is based on an induction generator with a multiphase wound rotor and a multiphase slip ring assembly with brushes for access to the rotor windings. DFIG wind turbine has the capability of absorbing as well as generating reactive power, a DFIG wind farm thus can not only generate active power, but also generate or absorb the reactive power to stabilize the grid voltage. Hence to train the student community towards Green Power, the DFIG has been installed.

IV) FUEL CELL TRAINER SYSTEM

It is mainly designed to explore the electricity generation from the Fuel cell and effectively utilized to Electric Vehicle system. It provides better learning experience to the beginner as well as researchers. The EV system powered up with Fuel Cell and the complete behavior of the module has developed. All the data of Fuel cell and EV are available to the user for research purpose.

This trainer kit is designed for control of PMDC motor using the PEM (Proton Exchange Membrane) Fuel Cell. The working of the fuel cell can be analyzed. Motor control operation can be done in all four stages Forward Motoring, Forward Braking, Reverse motoring and reverse braking. DSPIC based PWM controller is interfaced with this power module for open/closed loop speed control application.

Features

- Highly safety involved trainer module
- USB Interface for data transfer
- The EV system is reprogrammable
- Embedded C and Graphic Program supported
- Fully automated and as well reprogrammable
- High-Resolution Power Converter is inbuilt
- Highly user-friendly
- Accurate control of forwarding, reverse and Breaking for EV Module

The objective of Fuel Cell Trainer Modules

- Working Principle and structure of the Fuel Cell
- Electricity Generation
- Modeling of Electric Vehicle with alternative fuel
- The effect of influencing factors on the characteristic curve of a fuel cell
- Learning to evaluate stack & system efficiencies, losses & Parasitic loads

The various applications are

- To analyze super capacitor property in energy storage materials
- To measure the electrochemical potential of materials so as to classify the rusting property of materials
- To measure the ionic conductivity and ion mobility in the materials
- To identify the materials for different sensor applications.

V) VIDEO CONFERENCING -IMPROVED COMMUNICATION FOR PRODUCTIVITY

The NPIU (National Project Implementation Unit) has encouraged the setting up of Video Conferencing unit in the project institutions with the aim to improve the mentor-Mentee institutions, encouraging online lecture delivery and improved governance and to harness the benefits listed below

- Reduced Travel Time and Costs.
- Optimised Attendance.
- Structured Meetings with Improved Communications.
- Increased Productivity.
- Employee Retention.
- Sustained Competitive Advantage

A complete VIDEO CONFERENCING SYSTEM has been setup and is effectively utilized at GCE, Bargur.

VI) IMPROVING INFRASTRUCTURE FOR POST GRADUATE COURSES In ELECTRICAL ENGINEERING

To improve the teaching learning for PG students and research in Power Electronics and Drives, the following has been successfully established in the Electronics and Electrical engineering department.

AC AND DC DRIVES LAB EQUIPMENTS FOR PG

VII) ENVISAGING THE FUTURE- CLOUD COMPUTING

Cloud storage enables to store data on hosted servers. To store all digital things like documents, photos, music and videos remotely, without taking up physical space in the personal computer. Hence to educate students about the technical details and real time working of cloud, the cloud computing lab has been setup. It will be used as a depository for lectures and data of students and faculty.

VIII) NASSCOM EXAM

NASSCOM Exam was held for students on 19.1.2020 and 20.1.2020. About 550 students participated in the Online Exam.

NASSCOM Exam was held for students on 19.1.2020 and 20.1.2020.

IX) DIGITAL BOARD TRAINING

NPIU has provided 13 numbers of Digital Boards for this Institution. They have been installed and a training was given on 29.1.2020 by Samsung India.

Digital Board Training on 29.1.2020

X) SPIU, BHOPAL:

A Team Comprising of the following Professors visited SPIU, Bhopal in a meeting held for Review of **TWINNING Activities and Sharing the Best Practices on 23.1.2020 and 24.1.2020**. The 1.1 institutions of Madhya Pradesh and Officials from Technical Education Department of Madhya Pradesh were the audience.

1. **Dr. T.Alwarsamy , Principal**
2. **Dr. T.K Shanthi ,HOD/ECE & Controller of Examinations**
3. **Dr. J.Nafeesa Begum, HOD/CSE & TEQIP FINANCE OFFICER**
4. **Mr. S.TamilPrabhakaran, AP / Mech& Assistant Procurement Officer [TEQIP-**

III]

On the First day a Presentation on Twinning Activities was given and on the second day, Good Practices in the Department of Technical Education, Tamil Nadu.

**Principal Secretary to Government of Madhya Pradesh for Technical Education on
24-1-2020 of Madhya Pradesh**

Highlighting Best Practices in Tamil Nadu.

GCE Bargur, GCT Coimbatore, GCE Salem along with officials of SPIU Madhya Pradesh, Bhopal

XI) FACULTY DEVELOPMENT PROGRAMME

TEQIP-III Sponsored FDP on “Material Testing and Characterization Techniques for Research” 07.12.2019 to 13.12.2019 conducted by Mechanical Department.

FDP on Material Testing and Characterization Techniques for Research on 07.12.2019 to 13.12.2019

XII) STUDENTS WORKSHOP

TEQIP III Sponsored Two Day Workshop on "Energy Audit in Motors and Mechanical Equipment" held on 30.1.2020 and 31.1.2020.

"Energy Audit in Motors and Mechanical Equipment" held on 30.1.2020 and 31.1.2020

XIII) APTITUDE TRAINING

Aptitude training was given to around 120 final year students during 27.1.2020 to 31.1.2020.

Aptitude training on 27.1.2020 to 31.1.2020.

XIV) FACULTY ATTENDING PROGRAMMES OUTSIDE THE INSTITUTION:

- 1. Mr. J.Manimaran, AP/CSE attended the Professional Development Training Programme under TEQIP-III held at IIM, Trichy during 20.1.2020 to 22.1.2020.**

- 2. Dr.T.Govindan has attended the short term training programme on “ Making Mathematics Interesting and Understandable at NITTR, Bhopal during 27/1/2020 to 31/1/2020**

3. Mr. R.Ranjith attended the NASSCOM training on Internet of Things (IoT) conducted at IIT Bombay during 27-31, Jan 2020

4. Dr. Charles, AP/ECE attended the Professional Development Training Programme from Jan 28, 2020 to February 1, 2020 at IIM, Raipur.

XV)

TEQIP III Sponsored National Level two day workshop on NPIU programme at Coimbatore.

XVI) IE PROGRAM

TEQIP III Sponsored “Institute of Engineers” programme. Poster Design, Face Painting and many programs are held on 15.10.2019.

E-PROCUREMENT TENDER NOTICE		
e-Tenders are invited under two bid system for the supply and installation of equipments as detailed below for the establishment of EMI-EMC Pre-Compliance Lab setup at Government College of Engineering, Bargur		
File No. GCEB / EMI-EMC / A2/ 2020 / Advertisement Dated. 03.02.2020		
Sl. No.	Brief Description of the Equipments	Last Date & Time for Tender Submission
1	Pre-Compliance Conducted Emission test set-up	19 th Feb 2020 at 03.00 PM
2	Pre- Compliance Conducted Transient Immunity test set-up	
3	Pre- Compliance Radiated Emission test set-up	
4	Setting up of Anechoic Chamber needed for the EMI/EMC pre-compliance test set-up	
5	Calibrating equipment for Electrical instruments	
6	Calibrating equipment for Mechanical instruments	
7	Pressure Gauges with NABL traceable certificate	
8	Computers, printers and other consumables for the laboratory	
<p>The tender document along with detailed specifications of the equipments can be downloaded from the Tamilnadu Government e-Tender Website www.tntenders.gov.in Interested vendors may visit the above website and upload your quotations through online only. Corrigendum if any, issued after publication of this Tender notice will be published in the above e-Tender Website.
