GOVERNMENT COLLEGE OF ENGINEERING (AUTONOMOUS),
BARGUR - 635 104

About GCEB

Government College of Engineering (GCE) is spread over a sprawling campus with calm surroundings, creating a fitting atmosphere for study. GCE Bargur provides a clean and invigorating environment conducive for higher education.

Government College of Engineering, Bargur is one of the educational institutions developed by Government of Tamil Nadu, which was started in the year 1994 to cater to the needs of the nation in the development of technocrats and to provide facilities for educating and training men and women to meet the entrepreneurial and management needs. The Tamil Nadu Government has created adequate infrastructural facilities and sufficient funds and is keen on developing the institute for higher education. The college has been approved by the AICTE and the college intake is purely based on merit.

Government College of Engineering, Bargur has been granted autonomous status from the year 2017-18 to 2022-23 (six years)

HISTORY

With the objective of providing better education opportunity for the people of Dharmapuri District, an educationally backward area mostly consisting of villages, The Government of Tamil Nadu permitted the starting of a new Government Engineering College in Bargur from the year 1994-95 in Dharmapuri District G.O. Ms 380/ Est / dated 12.05.1994, then subsequently bifurcated Krishnagiri District. Government college of Engineering, Bargur carved into existence on this red-lettered day. With motto of "Growth and Commitment through Excellence", This College has catered to the aspirational requirements of the many enthusiastic engineering students.

The college is successfully pursuing its mission of professionalizing Indian Engineering through innovative teaching, infrastructure and management. Besides promoting research and disseminating knowledge gained, it fosters cooperation between the academic and industrial communities. Regarded as the sole government engineering institution, this college has always equipped itself with the modern trends in the run for becoming a premier institution in the nearer future. The college has been approved by the AICTE (Letter No: 32-50/IT/RC-94 dated 17.08.1994) and student's intake is purely based on Higher Secondary Marks.

The College started functioning from 09-11-94 at the Govt. Polytechnic Campus, Krishnagiri as a temporary measure and admitted students for EEE and ECE branches only. College was moved from to its present campus in July 2000 when Prof Jameel was Principal I/c.

The expert committee appointed by the Madras University visited the college on 08-05- 95 for extending the affiliation. The college got affiliated to the Anna University, Chennai from the year 2001 onwards. Part time BE course was started in EEE branch in the year of 2002. The computer Science and Engineering Branch was started from 2004. From the year 2007 Onwards, the College is affiliated to Anna University, Coimbatore. The Mechanical Engineering Branch was started from 2009.

50 acres of land in Madepalli Village, near Bargur was acquired for the construction of New Buildings.

A sum of Rs.7.85crores has been spent for the construction of:

1. Administrative Building.
2. Electrical and Electronics Block.
3. Electronics and Communication Block.
4. Hostels for Boys and Girls.
5. Mechanical Engineering Block.
6. Computer Science and Engineering Block.
7. Additional Boys Hostel.
8. Library Block.
9. AICTE has granted Rs.2 Crores for construction of SC/ST Hostel with Skill

Development Center.

The college started functioning at the premises near Madepalli Village, with effect from 5-7- 2000. It is situated on NH-46, 13 kilometers from Krishnagiri and 3 Km from Bargur.

VISION:

To provide world class engineers who are ethical and good citizens of our motherland.

MISSION:

To groom the student community through learner centric quality lectures, laboratories, Libraries and Value-added training.

PRINCIPAL'S DESK

Government College of Engineering, Bargur was established in the year 1994 to cater to the needs of people of Tamil Nadu. The institution is working towards taking it to greater heights in the field of professional education, with a commitment to provide quality education to the Under Graduate students of ECE, CSE, EEE and Mechanical Engineering, and the Post Graduate students of Applied Electronics, Power Electronics and Drives and Computer Science and Engineering. Our institution has the state-of-the-art infrastructure, outstanding faculty and valuable research programmes. The institution is conferred with Autonomous status by UGC, accredited by NBA (for ECE, EEE and CSE branches) and affiliated to Anna University. The Career Development Cell of the college plays an important role in arranging, industrial training, internships and training on valued added courses like, NPTEL, QEEE, Anna Edusat etc. This cell also helps in identifying the students aiming to secure jobs and higher education. We have a wide spectrum of alumni working in several multi-national companies. Some of them visit the college regularly to help the students understand the challenges they face in the industry and ways of tackling them. Apart from the academics, the students are being shaped in all spheres including communication skills and personality development. All our graduates will serve you with utmost sincerity, dedication and hard work, and will be an asset to your organization. We heartily invite you to visit our Campus and recruit our graduates. Looking forward to meet you soon.

CIRCULAR

As part of the Government of Tamil Nadu sponsored student **internship program 2024**, it is imperative that we ensure the presence and progress of our students at their respective internship locations. This initiative not only helps in validating the students' attendance but also provides an opportunity to gauge the quality and relevance of the training they are receiving.

Kindly request all assigned faculty in-charges to visit the industries where their respective students are undertaking internships. The primary objectives of these visits are to:

- Confirm the presence of our students at the internship site.
- Assess the progress and quality of the internship.
- Discuss with industry mentors and supervisors to understand the students' contributions and areas of improvement.
- Address any issues or challenges faced by the students during their internship period.

Please prepare a brief report on your observations and interactions during the visit and submit to CDC/Internship. The report shall include:

- Names of students visited
- Industry/organization visited
- Progress assessment students
- Any issues or suggestions for improvement

Kindly coordinate with the respective industries to schedule your visit at a mutually convenient time.

TADA is eligible to claim as per norms.

**Student Registration for Youth-To-Youth Quality Connect Programme-
World Standards Day 2024**

It is informed to all students that our institution has been invited to participate in the *Youth-To-Youth Quality Connect Programme* organized by the Bureau of Indian Standards (BIS) to spread awareness about BIS and the importance of quality standards. This campaign is being conducted in honour of *World Standards Day 2024*.

As part of this initiative, we are looking for 100 student volunteers, referred to as *Manak Mitra*, to join this prestigious campaign. Selected volunteers will have the opportunity to contribute towards raising awareness about BIS standards, the BIS Care App, and the importance of quality, health, and safety standards in the daily lives of consumers.

Duties of Volunteers (Manak Mitra):

1. Educate 25 youth students over a period of 10 days.
2. Distribute pamphlets about BIS and its activities.
3. Create awareness about BIS, the BIS website, the BIS Care App, and the "Know Your Standards" feature.
4. Demonstrate the BIS website and its applications.

Benefits for Volunteers:

- Each volunteer will receive a T-shirt and cap.
- Upon successful completion of duties and submission of feedback forms, volunteers will receive an honorarium of Rs. 1500/-.

Registration Process:
Interested students are encouraged to register by filling out the form through the link below:

Registration Link: <https://forms.gle/6MXmmSLYfc3KQ2iQ8>

Deadline for Registration: Please submit your registration by **18th October 2024**.

This is a great opportunity for students to gain experience in community outreach and to be a part of a national-level campaign promoting quality standards. We encourage all interested students to participate.

In this regard an orientation session is scheduled on 21.10.2024 at 4.30pm in Seminar Hall, Department of Mechanical Engineering.

ELANGO Co-Coordinator Department of Mechanical Engineering Organized by Department of Mechanical Engineering Government College of Engineering Kanniyakumari - 626104 (Bargur), Tamil Nadu Website: www.gcebargur.ac.in	About the Institute The Government College of Engineering, Bargur (GCEB) is an autonomous engineering college located in the Kirotnagiri district of Tamil Nadu, India. It was established in 1994 and is affiliated with Anna University. The college is situated on a 5-acre campus in Madurai village, 4 km west of Bargur, and offers undergraduate and postgraduate programs in various engineering disciplines. About the Faculty The faculty of Government College of Engineering (GCEB), Bargur, consists of experienced and qualified professionals who are dedicated to providing quality education to students. The institution has four departments of study namely Computer Science & Engineering, Electrical Engineering, Electronics and Communication Engineering, Mechanical Engineering. About the Department Mechanical Engineering: The Mechanical Engineering Department at Government College of Engineering, Bargur (GCEB) is a vital part of the institution, offering undergraduate programs in Mechanical Engineering. The department was established in 2009 and offers a full-time Bachelor of Engineering (B.E.) in Mechanical Engineering, a four-year undergraduate program. The course is designed to provide students with a broad understanding of mechanical engineering principles, including fluid mechanics, thermodynamics, heat transfer, solid mechanics, materials engineering, manufacturing engineering, energy systems, dynamics, and control systems. The faculty members of the Mechanical Engineering Department at GCEB are involved in various research areas, including Nano Machining, IC Engines, Alternative Fuels, Nano Coatings, Composite materials, Coatings technology, Surface Engineering, Corrosion, Optimization, Nano Materials, Refrigeration and Air conditioning. The department has a team of experienced faculty members, including professors, associate professors, and assistant professors, who are dedicated to teaching and research. About the ATAL The Government of India in association with All India Council for Technical Education (AICTE) launched the AICTE Training and Learning (ATAL) Academy with a vision to empower faculty to achieve goals of higher Education such as access, equity and quality. ATAL Academy have started unique Faculty Development Programs in various thrust areas of modern technology. More than 1100 such programs have already been conducted in various AICTE approved institutions benefiting the faculty, Research Scholars and PG Students around the nation. About the FDP The FDP on "Advanced Materials: Rare Earth and Critical Minerals" is designed to provide an in-depth understanding of the current advancements and challenges in the field of materials science, focusing specifically on rare earth elements (REEs) and critical minerals. These materials are vital for various high-tech applications, including renewable energy technologies, electronics, and advanced manufacturing.	FDP Contents ✓ Introduction to Rare Earths and Critical Minerals ✓ Properties and Applications of Rare-earth Elements ✓ Synthesis and Fabrication Techniques for Advanced Materials ✓ Critical Minerals in Technology: Beyond Rare-earths ✓ Sustainability and Recycling of Advanced Materials and Rare-earth Elements ✓ Nanomaterials and Their Applications ✓ Advanced Materials in Renewable Energy Technologies ✓ Economic and Geopolitical Aspects of Rare-earth and Critical Minerals ✓ Advanced Characterization Techniques for Materials and Minerals ✓ Future Trends in Advanced Materials and Critical Minerals ✓ Revolutionizing Industries: The Role of Advanced Materials in Modern Technology ✓ Case Studies on the Use of Advanced Materials in Industry ✓ Extraction and Processing of Rare-earth Minerals ✓ Advanced Processing Methods Sponsors The resource persons for the program shall include faculty members and renowned researchers from higher education & research institutions, and Engineers from Industries. The forum paves way for building researchers to pass through innovative techniques.

INTERNAL QUALITY ASSURANCE CELL (IQAC)

Circular No.: GCEB/IQAC/2024-25/01 Date: 08.04.2025

Dear Faculty Members,

The Internal Quality Assurance Cell (IQAC) will conduct the Academic Audit for the Academic Years 2023-24 and 2024-25 (up to 31st January 2025) as part of our institution's commitment to continuous quality enhancement. This comprehensive audit will assess compliance with previous recommendations, evaluate current academic practices, and ensure alignment with our institutional quality benchmarks.

Schedule of Audit Presentations

Department(s)	Date
CSE & ECE	28th April 2025
EEE & Mechanical	29th April 2025
Science & Humanities	30th April 2025

Requirements for the Audit

1. Heads of Departments

- Submit and present a detailed Compliance Report addressing observations from the AY 2022-23 Audit (refer to the IQAC Audit Report AY2022-23)
- Document corrective actions implemented for previously identified issues, including:
 - Completion status of AICTE 360-degree feedback system
 - Course file documentation including final attainment levels post-results
 - Infrastructure upgrades (laboratory equipment, IT systems, facilities)
 - Student support mechanisms (remedial classes, bridge courses, counseling services)

2. Faculty Advisers

- Present comprehensive Class Achievement Reports for AY 2023-24 and 2024-25, highlighting:
 - Student academic performance metrics and placement statistics
 - Implementation of innovative teaching methodologies and learning outcomes
 - Research activities, publications, and funded projects
 - Student participation and achievements in competitions (hackathons, GATE, etc.)

3. Faculty Members

- Submit complete Course Files containing:
 - Internal assessment question papers with proper approvals (HOD signature, CO-PO mapping, Bloom's taxonomy levels)
 - Final course outcome attainment calculations incorporating university examination results
 - Documentation of beyond-syllabus content delivery and related student assignments/projects
 - Completed AICTE 360-degree feedback forms (individual and departmental consolidated reports)

4. Institutional Compliance

- Ensure all laboratories and classrooms meet safety standards and functionality requirements
- Provide documentation of consultancy work, industry collaborations, and active MoUs
- Verify that updated syllabi, committee minutes, and previous audit reports are accessible on the college website

Submission Guidelines

- Deadline: All documentation must be submitted to the IQAC office by 24th April 2025
- Format: Both digital copies (via institutional email) and hard copies (duly signed) are required
- Compliance: Departments failing to submit complete documentation or address previous audit observations may be subject to additional review procedures

Your cooperation in this quality assurance process is essential to maintain our institutional standards and achieve continuous improvement in our academic practices.

Inauguration ceremony of the workshop at CSE Open Source Lab from 15.07.2025 to 16.07.2025 by Tamil Nadu APEX Skill Development Centre for Automobile.

About Us

Tamil Nadu Apex Skill Development Centre for Automobile

At TN Auto Skills, we are committed to empowering Tamil Nadu's youth with world-class automotive training and skill development. As a state-of-the-art initiative under TNSDC, we bridge the gap between industry needs and skilled manpower by offering hands-on training, expert mentorship, and placement support in the automotive sector. Our goal is to drive the future of mobility by building a workforce that is technically sound, future-ready, and globally competitive.

Title: Code Craft : Building Python Applications

Duration: 1 Day (6 Hours)

Mode: Offline | Hands-On Focused

Target Audience: GCE, Burgur - IIIrd Year CSE Students

Date: 15. 07. 2025 (Tuesday) - Batch-I
16. 07. 2025 (Wednesday) - Batch-II

Venue: CSE Block - Open Source Lab, GCE, Burgur

About the Program

This workshop is designed to introduce students to the fundamentals of application development using Python. It focuses on helping beginners build their first functional applications using Python's rich features and libraries. The session includes theory, demonstrations, and hands-on coding activities, allowing students to understand and implement Python-based logic in real-world applications.

Content Covered

- Python Basics Refresher
- Functions and Modular Programming
- Working with Files and Data
- Intro to GUI App Development
- Build a Mini Project

Principal & Patron:
Dr. V. Thirunavukkarasu, M.E., Ph.D.,
Principal, GCE, Burgur.

Head Of The Department:
Dr. J. Nafeesa Begum, M.E., Ph.D.,
Professor & Head Department of CSE,
GCE, Burgur

SPOC:
Dr. J. Manimaran,
Assistant professor / CSE, GCE, Burgur.

Program Objectives

- To introduce Python programming concepts for application development.
- To familiarize students with Python's built-in libraries and user input/output handling.
- To guide students in developing a simple console-based or GUI-based mini application.
- To build confidence in applying Python to solve practical problems.

Learning Objectives

- By the end of this workshop, participants will be able to:
- Understand basic Python syntax, data types, and control structures.
- Handle user input, perform validations, and use conditional logic.
- Develop small applications using functions, file handling, and libraries.
- Create a simple Python-based mini project (console/SUI) independently.
